

# SEA PRO PROFESSIONAL SERIES

MADE IN BRITAIN

**HUMBER**

**HIGH PERFORMANCE RIBS**

## **Shallow V model**

The shallow V hull offers all the qualities of a RIB with the additional advantages of an inflatable craft. Both are easy to launch and recover and have the capabilities to operate in shallow waters which would be inaccessible to a deeper V hull.

## **Don't judge a book by its cover!**

With an exceptionally high loading and carrying capabilities, the 4.8m model can be rigged with long or short shaft outboard motor. The 4.8m is capable of carrying a typical load of 6 divers with kit or a group of 8 people whilst achieving planning speeds with a 40 hp motor!

## **Affordable Package**

Similar to conventional inflatables, both models have also been designed to cater for remote control or tiller steering. The significant savings and low maintenance upkeep of a tiller system also can make this an attractive and affordable package whilst creating additional deck space for personnel and/or equipment.

## **Safety and Efficiency**

A large diameter inflation collar combined with a moderately high bow provides a safe, comfortable dry ride whilst offering increased buoyancy and stability. The high performance of the multi chine hull design provides outstanding acceleration and responsive handling when compared against deeper V hulls. As less horsepower is required to plane this RIB, fuel efficiency can be another obvious advantage.

## **Why not upgrade?**

With optional layouts, A frames and console upgrades as well as a range of different colours, then why not customise the boat to meet the needs of the job at hand. Additional extras include extra paddles, navigation aids and a range of different electronics. We also cater for bespoke vessels which will allow you to tailor the craft to your individual requirements. Our team are always on hand if you need any advice with input.

## **A boat for all experience ranges**

The quality of the boat will make up for any mistake made by the driver. Easy to navigate and control, it doesn't matter if you're a newbie or a seasoned veteran of the sea.

## **Test Drive and Advice**

We want you to feel at ease and want you to see that we can walk the walk! Arrange a water trial and/or speak to our experienced team for more information and advice into getting the best out of your Humber.

# SEA PRO PROFESSIONAL SERIES

The Sea Pro series are both functional and tough! This shallow 'V' model range offers all qualities of the conventional RIB with the additional benefits of the Inflatable craft.

Unique in its field the crafts are easy to launch and recover and have the capabilities to operate in shallow waters inaccessible to a deeper 'V' hull design, making them an ideal platform of choice.

The high performance of the multi chine commercial strength hull provides exceptional sea keeping abilities and responsive handling. With its expertise designed inflation collar combined with a moderately high bow this range provides a safe, comfortable dry ride whilst offering increased buoyancy and stability.

Built with superior strength, light weight specification, the Sea Pro series offers high loading and carrying capabilities and unlike comparable rigid inflatables the 4.8m model can be rigged with a short or long shaft outboard motor including tiller steering.

# SEA PRO PROFESSIONAL SERIES

## STANDARD FEATURES & EQUIPMENT

- Proven unique deep 'V' high performance hull with tapered keel to increase lift and acceleration
- 'Orca' Hypalon 1300gms tapered inflation collar designed & produced in house
- Over pressure relief valve for additional safety
- Outer inflation collar flat rubbing strake protection
- Forward and Aft recovery grab handles
- External life lines mounted on molded rubber blocks
- Raised bow stowage locker, fully drainable with twin handle access hatch
- Anti slip deck finish with rear drain well and transom ventura drainer
- External bow winch eye
- Twin transom towing eyes
- Owner's Instruction Manual, Emergency Repair Kit & Inflation Pump
- Upholstery available in a range of coordinated colours
- Single or two tone inflation collar options, available in a wide colour choice

## CUSTOMISATION & SUGGESTED OPTIONAL EQUIPMENT

- Wide range of single or two tone inflation collar colour choice
- Extensive hull, console and seating combinations
- Tube customization & reinforcement accessory options to suit individual requirements
- Bi-spoke choice of helm and jockey seating
- Manual conventional or hydraulic steering system
- Navigation frames with optional flag holders
- Electronics packages to suit your budget
- Electrics- Navigation lights, bilge pump, distribution switch panel and 12v power socket
- Fuel system Under console fixed or removable
- Individual name badges
- Marine damped high speed compass
- Full boat & console storage cover
- Antifouling & keel guard protection
- Outboard motor options to suit individual application/ size of craft
- Trailers supplied with jockey wheel and lighting board, ex tension bars & securing straps
